Soldi Smart Pro

Short facts:

- Automatic currency detector for EUR, GBP, CHF
- Clear result through an innovative Signal frame
- Operation can be adjusted individually
- LED display indication in 5 languages
- With update function and rechargeable battery (optional)

Soldi Smart Pro
Automatic currency detector

The Soldi Smart Pro, with its innovative illuminated signal frame represents the new generation of banknote detectors. Banknotes are checked for authenticity in less than 1 second. The device signalises directly a clear testing result at the POS. The red signal of the illuminated frame and the acoustic signal, which can be optionally switched on or off, warn the user in case of suspicious banknotes. The clear LED display indicates in addition the security features considered to be suspicious in 5 languages. Thanks to the individually adjustable functions

the Soldi Smart is suitable for every need. The direction and the way of banknote ejection (banknote held in the device or ejected), the language and the time interval of the standby mode are only some advantages that can be easily selected through the self-explanatory menu. Like all ratiotec currency detectors, also the Soldi Smart Pro disposes of an easy to open front flap for a simple removal of jammed banknotes and dirt. The USB interface enables furthermore the loading of software updates.

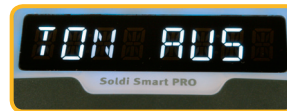

Green Signal frame:
Genuine banknote

Red signal frame:
Suspicious banknote

Displays precise testing results of suspicious banknotes.

Signal tone and illuminated Signal frame can be switched off for a more discreet counterfeit detection.
